

Lordos Beach Hotel has taken actions to reduce its environmental impact and to promote sustainability by adopting Travelife.

Travelife is an international sustainability certification scheme for hotels and accommodation. It is a standard that helps to improve how hotels manage their environmental and social impacts, such as reducing energy or water consumption and ensuring to support local people, businesses and culture. In addition, it covers issues like human rights, child protection and employee welfare.

Our environmental and sustainability action plan sets targets for saving energy, water and chemicals, reducing our waste and supporting the local community.

All hotel departments and employees participate in this effort. We also encourage our partners, suppliers and local community to implement similar practices.

**Please join our efforts during your stay with us. Simple things you can do...**

- 1. Reduce, reuse and recycle. You can do your part by leaving aluminium, plastic, glass, paper and batteries in your room or make use of the available recycling bins.**
- 2. Save water. Reduce the flow of water or turn off water when not needed. Report leaks to the reception.**
- 3. Save energy. Turn off the lights and air condition when leaving the room.**
- 4. Help reduce water consumption and detergents. A towel on the rack means "I will use it again." A towel on the floor means "Please change."**
- 5. Experience the rich Cypriot civilization, culture, history and way of life. In our Front Office area, as well as in a digital format, you will be able to find suggestions.**
- 6. Taste the excellent local cuisine.**
- 7. Donate to a local charity.**
